

ELECTRIC POWER PACKS

GMP Series

GRIPHOLD® GMP Series electric power packs are suitable for variety of industrial applications like lifting, pushing, pulling, bending, pressing machines and widely used for hydraulic jacks. These pumps are suitable for working pressure requirements of 700 Bar, available with different sizes of reservoirs, valve settings, flow rates, motor power and voltage. These power packs are available for single acting and double acting applications.

Part No.	Working Pressure	Flux at High Pressure (L/min)	Voltage (V)	Usable Oil Capacity (L)	Type	Weight (Kg)
GMP08A-422	70Mpa	0.8	220	4	Double Acting	22
GMP20A-722	(Manual Valve)	2.0	220	7		28
GMP20A-1322		2.0	220(380)	13		48
GMP08B-422	70Mpa	0.8	220	4	Single Acting	20
GMP20B-722	(Manual Valve)	2.0	220	7		27
GMP20B-1322		2.0	220(380)	13		46
GMP08C-422	70Mpa	0.8	220	4	Single Acting	20
GMP20C-722	(Solenoid Valve)	2.0	220	7		27
GMP20C-1322		2.0	220(380)	13		46
GMP08H-422	70Mpa	0.8	220	4	Double Acting	22
GMP20H-722	(Solenoid Valve)	2.0	220	7		28
GMP20H-1322		2.0	220(380)	13		48
